

Welcome to AMFT: Where Precision Meets Possibility

Today marks more than a major milestone, it's a game-changer for our customers worldwide. With AMFT, customer relationships, local manufacturing expertise, and individual brand legacies are retained and respected, while opening the door to a seamlessly integrated global platform with over 300 years of combined expertise.

Customers from our five legacy businesses now benefit from harmonized global R&D, increased supply chain reliability, and access to engineering talent wherever they operate.

AMFT is engineered for industries where reliability, speed, and quality are non-negotiable – from aerospace and medical technology, to energy, transportation, defense, electronics and beyond.

“As AMFT, we meet our customers where they are – anywhere in the world,” shares Todd Smith, President and CFO of AMFT. Whether a global innovator or an agile disruptor, every client partners with a team who speaks their language, solves the toughest manufacturing challenges, and delivers quality where failure isn't an option.”

This is a launchpad for excellence, innovation, and operational resilience. To our customers from Associated Spring, Heinz Hänggi Swiss, AH Metal Solution, E.WINKEMANN and Sko-Die, Inc.: Welcome to the next era. AMFT is your new home for custom-engineered precision components, designed for tomorrow's toughest challenges.
